

Meritor Part

Meritor Parts - Meritor is a leading international dealer which is proudly built on a 100 year tradition of quality and service. They concentrate on different modules, integrated systems and parts to original machine makers and the aftermarket for the industrial and transportation trades.

Meritor prides itself in the company's unique energy and believes that this particular energy contributes to their competitive advantage within the international operations. The business values their customers and wants to guarantee their success while anticipating their different requirements. Meritor begins with a tradition which values diversity of people and their broad thought processes. Operating in 19 countries and employing more than 11,200 people, Meritor encourages collaboration and innovation among a team of experienced experts.

By only hiring future focused staff, Meritor strongly feels these top-caliber workers will be able to quickly get used to to changing environments and demonstrate the performance and commitment considered necessary so as to reach results in the competitive materials handling business. The business empowers their teams to make sound business decisions to be able to enhance the overall success of the business. In return, Meritor provides all of their staff different opportunities for professional and personal development.

Their Advanced Engineering team is at the forefront of components and system engineering which include drivelines, axles, suspension and braking systems designed for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of their worldwide engineering workers.

The Quality team at Meritor is a dynamic and customer-focused group who is devoted to ensuring optimum development at their production plants and aftermarket distribution facilities that are located on 5 continents and in 19 countries.

They have their supplier network that is particularly located so as to support the growth of the business. Each regional team has globally supported quality systems, initiatives and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making in every aspect of the business. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is likewise comprised of transactional Green Belts who make use of Six Sigma tools to business processes and implement lean methods.
