

Lull Telehandler Parts

Lull Telehandler Parts - Telehandlers by Lull have been providing load placement precision ever since 1959. The Lull telehandler could really help make the task easier and faster, whether the work requires transferring loads, positioning heavy steel or landing loads on scaffoldings. These units are available together with the patented Stabil-Trak stability system in order to ensure operator confidence.

The horizontal placement system by Lull could provide eighty inches of boom travel for precision placement functionality. There are also several optional Lull attachments for their telehandlers so as to help finish whatever work.
