

Crown Forklift Parts

Crown Forklift Parts - The Crown company was founded in 1945 by two brothers, Allen A. Dicke and the late Carl H. Dicke. Carl's son and Chairman Emeritus, James F. Dicke, joined the family business later that same year. At present, his son, James F. Dicke II, is Chairman and CEO. James F. Dicke III, serves as the company President these days, becoming the fourth generation of the Dicke family to maintain this position.

Crown initially started with a small client base producing temperature controls that they manufactured for coal burning furnaces. The production of these control units took place in a former hardware store based in New Bremen, Ohio, where Crown's head office currently remain.

In 1949, responding to the public's growing appeal of the TV, Crown shifted into the making of antenna rotators. This product was utilized to improve television reception and picture quality. The company's lucrative move allowed them to become a leading producer of units until 2001. The company ceased production in October after a decline in the worldwide demand for TV antenna rotators.

Crown soon diversified its manufacturing to take in the repair of mechanized and electrical parts for private and government use in the early 1950's. Following several successful bids within a brief period of time, the company had developed a respectable business in this field.

With such adaptability and success, Crown was able to diversify its production to incorporate material handling equipment. Crown began production of forklifts and lift trucks in 1957. The organization believed the industry needed a smaller line of top-quality quality forklifts. Crown promptly fashioned an exceptional series of progressive equipment and swiftly grew to be the most rapidly evolving materials handling company with its variety of merchandise.

In 1966, Crown ventured outside of the US material handling marketplace and into Australia. Sydney, Australia is home to the regional headquarters and presently leads Crown's Asia Pacific service, sales and marketing and advertising teams. Crown remains an unwavering market leader today, supported by exceptional service, solid sales and strong production operations.

Two years later, Crown had moved into the European markets by buying up an Irish manufacturing plant from a German Company, Steinbock. There they started to make PTH hand pallet trucks. Later that same year, Crown began their first London operation stationed near Heathrow Airport. The sales and service operation of Crown's comprehensive forklift line was accessible in the UK by the end of the decade. In the early 1970's, Crown expanded and began marketing and advertising lift trucks across Europe through autonomous sellers.

Currently, Crown manufactures an enormous fleet of electric forklifts. The company's vendor network, based in key international markets, consists of both Crown-owned and independently-owned dealers. They are responsible for handling the company's product sales and service.

Corporate offices in New Bremen, Ohio and Munich, Germany offer nationwide advertising and promotional sales support to all seller and sales personnel. Both Crown sales and seller personnel are factory-trained in all disciplines to ensure the utmost reliability and service. The Munich office was launched in the 1980's and offers purchasing, advertising and marketing, engineering and design functions for India, Africa, the Middle East along with Europe. The diverse family of international sellers and Crown-owned sellers effectively operate in almost 100 foreign city environments.

The 6 USA production locations for Crown consist of New Bremen, Ohio; New Knoxville, Ohio; Fort Loramie, Ohio; Celina, Ohio; Kinston, North Carolina; and Greencastle, Indiana. Crown proudly manufactures internationally, producing forklifts in Sydney, Australia since 1966, Queretaro, Mexico since 1973, Roding, Germany since 1986 and Suzhou, China since 2006. Crown also owns branch sales and service center operations in over 30 locations in the USA. International branch sales and service center operations include locations in Singapore, New Zealand, the Netherlands, Korea, Malaysia, England, Germany, Belgium and Australia.

Through its numerous clientèle on all sides of the world, Crown has built an first-rate reputation as a producer of forward-thinking, safe and reliable machines. The company has been awarded more than 50 prominent design awards and the products that Crown develops continues to attain recognition for modernization and top design excellence. To provide an example, in the 1970's, Crown's launch of the side-stance design proved exciting and unparalleled by materials handling professionals. Today, this design has acquired general acceptance and earned a Design of the Decade award from the International Design Society of America. Once again, more than thirty years later, the 5200S Series Reach Truck is another market original, providing the operator with several comfort options to lean, sit or stand, along with its unequaled output capacity.
